

FOLLOW THE TOUR

The self-guided tour is scheduled to be active Dec. 11 through Dec. 31, from 7pm-9pm each night. The addresses under each location heading are listed in the recommended order of visitation to make for the simplest trip. Starting points will vary, so there are no step-by-step directions in this brochure. Given the number of houses this year and the distances between the houses at each end of the tour, it would be very difficult to complete this year's tour in one night.

Remember, you are responsible for traveling safely throughout the tour. You must follow all laws and regulations that would normally apply.

DO NOT USE YOUR PHONE WHILE DRIVING!

Please also remember that participating households are doing this out of the goodness of their hearts, and be understanding if some lights are not active.

Do not trespass on private property while following this tour.

ABOUT THE TOUR

This year is the sixth year of the Orange County Tacky Lights Tour. This self-guided tour was started to help spread joy through the time-honored art of exterior illumination. We hope the 2023 tour is a bright spot for your family!

The 2023 tour is divided into three routes based on location. See the tour key for more information about the icons and numbers next to the addresses. Households on the tour have volunteered their time and effort. As a thank you, participating households will receive one commemorative ornament (while supplies last, final design may vary). This event is NOT a contest; it is a light-hearted tour. We want families to bundle up together and go out to see some of the best light displays in the area.
